

C.J. SCHURTER SCHOOL 2024-27 EDUCATION PLAN (YEAR 2)

Mission

Our mission is to create a safe, welcoming environment where everyone is inspired and nurtured to develop skills to become confident, independent life-long learners who are respectful and kind.

Vision

- Be a learning environment where students want to learn, staff love to work, and parents want to send their children.
- Honour and nurture students' individual strengths and passions, and support all students to develop their understanding of themselves and the world.
- Embrace inclusion and celebrate diversity so everyone feels comfortable, safe and valued in our caring environment.
- Have recognizable foundational goals that encourage community support and a staff that are adaptable and open to change.

MESSAGE FROM THE PRINCIPAL

As we go into the second year of our three year education plan for C. J. Schurter School. I am excited to share what has been accomplished and what we will be moving forward to achieve. The purpose of the Education Plan is to provide a meaningful plan to help us achieve our goals and support the academic, social and emotional needs and development of all students. Our Education Plan details the school goals and strategies which helps us to ensure all students at C.J. Schurter School receives the best, highest quality education which will help to prepare them for future challenges and success.

At C.J. Schurter school, our goal is to ensure all students have access to an inclusive learning environment where they receive the support to achieve and thrive in their academic and social, emotional goals. We work together to help our students build the skills they need to take part in positive relationships, as well as to have the confidence to stand up and speak for themselves. We work to encourage our students to take part in collaboration with others and work as a team to learn something new. As a team, we have developed our plan to include areas such as professional development for all staff, including a deep dive into best teaching practices, using our literacy and numeracy frameworks to ensure that differentiation and assessment is taking place on a regular basis.

Mental Health and social emotional learning are high on our list of priorities for our students. We are helping our students build the confidence they need to take chances in their learning but also in new experiences and building new friendships with other students. Through the WITS and Superflex programs we are giving our students the skills and tools they need to be successful if a conflict should arise. As well, these skills allow our students to have the communication tools to be able to share with others what is working and when they require additional supports.

There are many stakeholders that are very important to the success of our students and our school. We appreciate the support and dedication from parents and guardians as a partner in their child's education. It takes all of us - parents, guardians and community - to ensure the success of our students, without everyone's support our plan would not succeed. We will continue to work on strategies to improve our communication to our stakeholders but also allow them to share their input about the school and student learning needs.

By following our strategic plan, the staff at C.J. Schurter School is dedicated and committed to creating a safe, caring, welcoming learning environment where students will be supported to achieve all their learning needs. As we continue to work together, with our stakeholders, we will ensure all students' education, social, emotional and mental health needs are supported.
